	<p>It looks like a horse in black and white pyjamas. Its name is Marty.</p>		<p>It is big and grey. You can ride it. It lives in Africa and India. It has big ears. Its name is Dumbo.</p>

Ideas of playing dominoes:

You can print this set twice - three times

1. Rules - find the animal and matching description
2. More fun - the kid must make that animal sound to win a point
3. Pre intermediate students: they must say 3 more sentences about the animal and then they can win the point
4. Upper intermediate students - they must talk about similar animal, or animal of the same family - for 2 minutes (eg - lion - tiger - cat - panther..., panda - koala - bear)
5. or they must **compare** the animal to an animal from country the student comes from - use at least 5 comparatives
6. Advanced students - must answer specific question about the animal to win the point - such as : Is it a vertebrate, mammal? Where does it live? How many babies does it have? Is it carnivore / herbivore? (include advanced vocabulary)
7. Racing dominoes - print 2 sets, one set on COLOUR paper. This is really fun - kids work in two teams - one kid from each team is a secretary. Secretary runs to the team, picks one domino card and runs back to the blackboard and places the domino at the right place and runs back to his/her team. Next student runs and places another card. The first team to get rid of all cards wins. Then teacher correct any mistakes (mistake = minus 5 points). So it is important to be fast AND correct :-D (this is my very invention !)

➔ SPECIAL RULES FOR ESLPRINTABLES !!!

Enjoy playing !

PS: for creative kids: ask them to make a special design - sign from the cards!

(make a train, tree, centipede, sun...) -- the most creative team wins :-)
